Rochester **Primary Care Network**
and the **RPCN Health Plan**

Through federal funding from the Health Resources and Service Administration, RPCN is able to offer uninsured and underinsured patients access to quality health care, through our affiliated centers. These centers are JCAHO accredited, and offer medical and/or dental services. Our centers are fully staffed by Rochester's hospital systems – not low-income "clinics." The care that our 90,000 patients receive, in about 400,000 visits annually, is among the finest in our region. These patients enjoy lasting relationships with physicians that are long term staff of their respective centers. RPCN has been providing these services since 1986.

The RPCN Health Plan covers:

- medical office visits, including prenatal care
- lab tests
- x-rays
- prescriptions
- dental care

Have you recently lost your job? Eligibility is based on current income, not last year's income, so you may immediately qualify.

Call 328-7000
We can help you over the phone

When you call, we will:

- discuss your health care needs and help you select a "medical home" with a personal doctor and dentist
- set up your first medical and/or dental appointment
- help you find a health plan based on your financial circumstances
- set an appointment to complete your enrollment process

While your enrollment is pending, RPCN may cover the costs of your medical care.

Depending on your income and household size, we can help you qualify for:

- Child Health Plus
- Family Health Plus
- Medicaid
- Healthy New York
- EPIC
- RPCN's Health Plan

Don't presume that your income is too high. If you are not eligible for any of these plans, we will help you identify other health insurance options to meet your needs.

If your children qualify for free or reduced-price meals at school, then there is a good chance that you will qualify for the RPCN Health Plan.
